

Play area/Village Green

There have been a number of instances in the village recently of grass cuttings and other garden waste being dumped in public areas including the Village Green. These cause inconvenience to others as well as being unsightly. In one of the locations, 2 parish councillors had spent a lot of time clearing vegetation to enable repairs to the village green wall, only to have grass and leaves dumped in the area they had cleared. Please could the individuals concerned please refrain from this dumping and take their waste to the tip.

Further information regarding waste collection from North Lincolnshire Council can be found here
